PROFESSIONAL EXPERIENCE

Delivery Lead / EPM Lead Architect

2021 – 2023

Implemented Oracle EPM products including EPBCS modules, FCC, dashboards, and managed stakeholder requirements.

ACCENTURE

Dublin, Ireland

Leading global professional services company with 700,000+ employees and 9,000+ clients in 120+ countries.

- Implemented and tested Oracle EPM suite including EPBCS, FCC, ARCS and EDM, along with related reporting solutions
- Managed client requirements gathering workshops, functional/technical requirement documents, Requirement Traceability Matrix (RTM) documents and other artifacts
- Created and lead development of EPBCS dashboards and reporting
- Built reports for forecast, working capital and consolidation workstreams
- Responsible for stakeholder management and IT team leadership, along with individual technical contributions
- Analyzed IT processes and systems, and established improvements

Principal Consultant

2018 – 2020

Performed key role in FCCS implementation in conjunction with EPBCS and ERP, including metadata management.

AST LLC (Applications Software Technology)

Lisle, IL

Enterprise Performance Management (EPM) consultancy.

- Implemented full life cycle of Oracle FCCS from initial setup through go-live, integrated with Oracle ERP
- Utilized public sector FP&A (financial planning and analysis) budgeting and public sector accounting standards
- Created test scripts and test scenarios to demonstrate system compliance with client requirements
- Developed reports using Oracle Narrative Reporting (EPRCS)
- Performed master data management to sync data and metadata between EPM FCCS / EPBCS applications and ERP
- Developed user training materials for Oracle FCCS and Oracle EPBCS modules

Enterprise Performance Management (EPM) Technical Manager

2015 – 2017

Maneuvered between several roles and responsibilities, including solutions architect and software development.

CAPGEMINI NORTH AMERICA (Subsidiary of Cap Gemini S.A.)

New York, NY

Global leader in consulting, technology and IT services with 190,000+ employees in 40+ countries.

- Implemented full life cycle of Oracle Hyperion products, including Cloud Services (PBCS/EPBCS)
- Implemented Hyperion Essbase on-premise OLAP system, including multiple Essbase ASO cubes
- Functioned as a SME which kept multiple corporation-wide, business-unit-specific Essbase cubes in sync

Technical Project Lead / Senior Applications Developer

2011 – 2015

Technical project manager for Oracle Hyperion Enterprise Performance Management (EPM) implementation.

CHESAPEAKE ENERGY

Oklahoma City, OK

Second-largest producer of natural gas and a Top 11 producer of oil and natural gas liquids in the U.S.

- Architect and developer for full life cycle of Hyperion Planning implementations used for enterprise-wide forecasting and budgeting by 54 G&A departments and 20 Capex asset groups using Capex and Workforce modules
- Subject matter expert (SME) for Oracle Hyperion suite, including Essbase, Planning, Smart View and Financial Reporting; technical SME for reporting user training
- Developed high-visibility and high-priority tracking of Key Performance Indicators for operations reporting resulting in meeting daily reporting needs using dashboards with Interactive Reporting
- Provided development support for Hyperion reporting systems with over 600 users and more than 17,000 reports to enable business users to meet their operational objectives using large EDW and other data sources
- Mentored team members to increase their proficiency in using unfamiliar technologies
